Texarkana, Ark., Aug. 31.—Seven bridges on the St. Louis Southwestern (Cotton Belt) Railway, between Texarkana and Stamps, Arkansas, were burned last night.

Chicago, Aug. 31.—Representatives of more than 100 railroads which are parties to the wage dispute brought before the United States Railroad Labor Board were expected to be heard today, although spokesmen for the track men had not completed presentation of their claims for a minimum wage of forty-eight cents an hour when yesterday's session closed.

The hearing has developed two bases for the minimum wage standard advanced by the track men in their claims to the right of a "living wage." The first called for a minimum of 48 cents an hour and was used as the basis for the argument of W. Jett Lauck, union statistician, and E. F. Grable, head of the track men's organization. The second, a 40 cent hourly minimum, was mentioned by Arthur Sturgis, another union statistician, as the least possible figure for a "living wage." He based his deduction, he said, on the conclusions of the labor board in its last wage cut ruling, when \$50,000,000 was slashed from the maintenance of way payroll.

Chicago, Aug. 31.—(By the Associated Press.)—Passing of the Chicago & Alton railroad into the hands of receivers, disclosures of new plots to wreck trains and several actual attempts to cause derailments and blow up railroad property were high lights today in the nation's railroad situation.

Dynamite, bullets and firebrands played an important part in developments of the last 24 hours.

With four men held on murder charges in connection with the Michigan Central wreck at Gary, Indiana, August 20, in which two engineers were killed, preparing to repudiate their alleged confessions as the first step in their defense, Chicago police announced disclosures of a plot to blow up the "Western Express" of the New York Central lines. With the arrest of three men in connection with the alleged plot came revelations of a widespread conspiracy to start a reorganization of terror in the railroads, the police said.

Labor Raising Funds.
Defense funds for the four men accused of wrecking the Michigan Central train were being raised by labor organizations and the Minneapolis Trades and Labor Assembly voted \$1,000 towards the \$10,000 bail asked for the release of William F. Dunn, one of the radicals held at St. Joseph, Michigan, on charges of criminal syndicalism growing out of the recent communist meeting held in the woods of Berrien county, Michigan.

An explosion of dynamite on the main line of the Cleveland, Cincinnati, Chicago & St. Louis Railroad at Arlington Heights, a suburb of Cincinnati, derailed the tender of a work train. A passenger train had passed a few minutes before the explosion.

An attempt was made to blow up the commissary of the Illinois Central Railroad at Paducah, Kentucky. The explosion blew a hole in the ground near the building.

Tamper with Switch.
A fast train on the Chicago & Alton ran into an open switch at Covel.

Veterans' Bonus Bill

Provisions of Law Abstracted By Associated Press—Details of All Its Provisions.

BULLETIN.
By Associated Press Leased Wire
Washington, Aug. 31.—The four billion dollar soldiers' bonus bill was passed today by the senate and now goes to conference.

BULLETIN.
By Associated Press Leased Wire
Washington, Aug. 31.—A final vote on the soldiers bonus bill before adjournment of the senate, appeared to be reasonably certain.

It will be some time, however, before the measure reaches the White House. After the senate vote it will be sent back to the house which is expected to order it to conference, adjustment of the differences between the two houses. After the conference complete their work the next step will be action by the house and senate on the conference report. With that approved the bill would be ready for the President.

By Associated Press Leased Wire
Washington, Aug. 31.—As amended by the senate, the soldier's bonus bill would become effective January 1, 1923, and would provide three optional plans for veterans of the World War other than those whose adjusted service pay would not exceed \$50. These would be paid in cash. The options are:

Adjusted service certificates, payable in 20 years or sooner at death and containing loan provisions. Vocational training aid at the rate of \$1.75 a day up to a total of 140 per cent of the adjusted service credit. Aid in purchasing a farm or home, the total amount to range from 100 per cent of the adjusted service credit, if the money were advanced in 1923, to 140 per cent of the adjusted service credit if the payment were made in 1928 or thereafter.

\$500 is Maximum.
Adjusted service pay, or adjusted service credit, would be figured on the basis of \$1 a day for domestic service and \$1.25 a day for foreign service, less than \$50 paid at discharge. But in no event could the amount of the credit of the veteran who performed no overseas service exceed \$500 and the amount of the credit of the veteran who performed any overseas service exceed \$825.

Adjusted service certificates would have a face value equal to the sum of the adjusted service credit of the veteran increased by 25 per cent, plus interest thereon for 20 years at the rate of 4 1/2 per cent a year, compounded annually.

Until January 1, 1926, any national bank, or any bank or trust company incorporated under the laws of any state, territory, possession or the District of Columbia, would be authorized to loan to any veteran on his promissory note, secured by his adjusted service certificate, any amount not in excess of 50 per cent of the total of the adjusted service credit plus interest thereon from the date of the loan, at the rate of 4 1/2 per cent a year.

Government Would Pay.
Should the veteran fail to pay the principal and interest of the loan within six months after its maturity, the government would pay to the bank the amount of such principal and interest and take over the certificate. This would be restored to the veteran at any time prior to its maturity on receipt from him of the amount paid by the government to the bank, plus interest on that amount at the rate of 4 1/2 per cent a year, compounded annually.

The rate of interest charged the veteran by the bank could not exceed by more than two per cent a year the rate charged at the date of the loan for the discount of commercial paper by the Federal Reserve Bank for the Federal Reserve district in which the bank was located.

If a veteran died before the maturity of the loan the principal and interest and to the beneficiary named by or to the estate of the veteran the face value of the certificate less the amount paid to the bank.

Loans Through Post Office.
After January 1, 1926, veterans holding certificates could make direct application through postmasters for government loans.

If such loans were made at any time not more than three years after the date of the certificate it could not exceed 50 per cent of the sum of the adjusted service credit of the veteran.

BOUNDARY LINES OF
SCHOOL DISTRICTS OF
DIXON ARE ANNOUNCED

Superintendent Potter Issues Bulletin Showing Territories.

Superintendent I. R. Potter of the Dixon schools has issued the following instructions to pupils, showing the boundary lines of the various districts and the schools pupils living within those districts must attend:

All first grade pupils living east of the Illinois Central tracks shall attend Central school. The boundary lines for the first grade at the Woodworth school shall be Fourth street and Van Buren avenue. This includes pupils living south of the middle of Fourth street and west of the middle of Van Buren avenue. All first grade pupils living west of the Illinois Central tracks, north of the middle of Fourth street and west of the middle of Van Buren avenue shall attend the Truman school.

Second Grade.
All second grade pupils living east of the center of Peoria avenue shall attend the Central school. The boundary line for the second grade shall be the same as for the first grade. Pupils living between Peoria avenue and Van Buren avenue shall attend the Woodworth school.

Third Grade.
All third grade pupils living east of the middle of Peoria avenue shall attend the Central school, and west of College avenue the Woodworth school. Between Peoria avenue and College avenue they shall attend the E. C. Smith school.

Fourth Grade.
All fourth grade pupils east of the middle of Peoria avenue and north of the middle of Seventh street shall attend the Central school. All fourth grade pupils west of the middle of Peoria and south of the middle of Seventh street shall attend the E. C. Smith school.

5th, 6th, 7th and 8th Grades.
For the fifth, sixth, seventh and eighth grades the Illinois Central tracks shall be the division line. Children east of the tracks, in these grades shall attend the Central school, those west of the tracks shall attend the E. C. Smith school.

North Side Elementary.
The Illinois Central tracks up to the north line of Swisleville shall be the dividing line. Children east of the tracks and north of the Swisleville line shall attend the Central school. All others attend the Loveland school.

The boundary lines in all cases are to be considered as temporary and may be moved to secure equal numbers in the various grades.

High Schools.
The river is the boundary line for the high schools except for those students who have attended high school on the other side of the river from which they now live and who want to continue in the same school.

Tuition students will be assigned to one or the other high schools by the superintendent.

Bowling Alleys Are
Ready for OpeningStrikers Sentenced
to Jail in Missouri

St. Louis, Mo., Aug. 31.—(By the Associated Press.)—Police Sergeant Oscar Steers, 64 years old, of Hannibal, Mo., today in federal court was sentenced to three months in jail and fined \$250 and Arthur Cole, also of Hannibal, striking shop man of the C. B. & Q., was sentenced to six months and fined \$500 for violating an injunction granted the road in connection with the shopen's strike.

In sentencing Steers, who was found guilty of permitting strikers to beat a negro cook employed in the Burlington shops, Judge Paris declared he gave him the lighter sentence because of his age and because "the mayor tipped you the wink to be looking the other way, when these assaults occurred."

"Steers, you are an old man and ought to have known better," the judge said.

"Because of your age and because you were subject, in some degree, to the orders of the mayor—for it has come to the ears of the court that the mayor tipped you the wink to be looking the other way when these assaults occurred—I am not disposed to punish you as severely as I would otherwise do. You were a police man and officer of the law who fail to protect the public ought to quit. They are violating their oaths and obtaining money under false pretenses."

R. L. BIRCHALL BETTER.
R. L. Birchall, of Erie, father of Mrs. George B. Shaw, of Dixon, is showing improvement in his condition, although still very ill.

Mrs. J. B. Hoefler and daughter Jane have returned from a three-weeks visit in Chicago.

THE PILGRIM'S PROGRESS

THREE AVENUES
OF ESCAPE FOR
IMPRISONED MEN

Experts Still Hope Entombed Miners Are Alive.

Jackson, Calif., Aug. 31.—(By the Associated Press.)—Three routes of escaping from the smoke-choked underground mine drifts to the open ground are possible to the forty-seven miners imprisoned since midnight Sunday in the lower levels of the Argonaut mine.

Two are through passages which workers are endeavoring to cut from the Kennedy, an adjoining mine. The third is through the shaft of the Argonaut itself.

A second rescue corps, on a level 300 feet below the group that has worked since Monday to reach the entombed men today had made perceptible progress. It will be a long siege, through 600 feet of loose dirt before a 149 foot ball of solid slate is reached.

This second corps, starting at 6 o'clock last night is working from the 3900 foot level of the Kennedy mine, burrowing toward the 4600 foot level of the Argonaut.

Fire in Mine is Out.
Three hundred feet above them are workers who have drilled in brief shifts since Monday to cut through more than 700 feet of loose dirt and timbers and thirty feet of hard rock. They struck a cave in last night, slowing their progress. They estimated there would be between 50 and 100 feet more of rock and dirt to be cleared.

The fire in the mine shaft is out. This was the announcement last night of experts working in the Argonaut shaft itself. The heat in the shaft, they said, was so intense that flames may break out again at any time. It will be five days before an entrance may be made through the flame charred section above the 3900 foot level to reach the men on the levels below.

But the announcement that the flames were subdued added hope to the groups who wait in shifts at the entrance of the pit and gave new strength to the workers.

Hope that the miners are still alive firmly held by the consulting experts. They are acting on the belief that the men have lived through more than 50 hours of entombment—that they will be alive for five or six days to come.

New Gate House at
Cemetery Complete

The new gate house at Oakwood cemetery has been completed and is now occupied by the office force. The main entrance which has been closed during the construction of the gate house, has been opened to the public. The building adds greatly to the appearance of the cemetery and fills a long felt want.

LABOR DAY WILL
BE OBSERVED BY
DIXON MERCHANTS

Monday will be a general holiday in Dixon, all places of business closing their doors Saturday night to remain closed until Tuesday morning. Down town merchants will enjoy a double holiday. Barber shops will also be closed all day Monday.

The offices in the court house will observe Labor Day, the building being closed. The offices in the city hall will remain closed for the day as will all of the attorney's offices. The postoffice will observe regular national holiday hours, no delivery being made on the city routes. The general delivery department will be open until 10 o'clock and the regular collection and dispatch of mails will be made.

All of the banks of the city will be closed all day.

There will be no edition of the Telegraph on Monday.

Conrad to Conduct
Insurance Business

A. E. Conrad and family will locate in Dixon soon, where they will make their future home. Mr. Conrad has gone into business for himself, establishing a General Insurance Agency, Real Estate and Loans. He spent 12 years as commercial traveling salesman, and when the war came on he tendered his service in the Young Men's Christian Association where he has faithfully performed his duties until recently. He has a keen sense of interest for boys and young men, and has shown rare ability in working with them. Mr. Conrad wishes to thank all the people of Ashton and surrounding community for the fine spirit of cooperation and interest shown in carrying on the boys work program and for the friendly relationship established during the family stay in Ashton.—Ashton Gazette.

Textile Strike, on
Since March, Ends

By Associated Press Leased Wire
Lawrence, Mass., Aug. 31.—The Lawrence textile strike ended today and virtual peace reigned between workers and employers for the first time since March 27. The two remaining mills which still held out for lower wages, the Methuen and the Pemberton, capitulated to the demands of the strikers and announced that on September 5, the wage scale in effect before March 27 would be restored.

Most of the 15,000 textile workers normally employed in the mills are expected to be back at their places early in September and already the wheels in several factories are in motion.

FIRST INDICTMENT IN
HERRIN MASSACRE
RETURNED YESTERDAYName of Defendant Not
Made Public By Mar-
ion Officials.

BULLETIN.
Marion, Ill., Aug. 31.—(By the Associated Press.)—Otis Clark, a union coal miner, the first man indicted by the special grand jury investigating the Herrin massacre, in which twenty-two persons were killed, surrendered shortly before noon. He is charged with the murder of C. K. McDowell, superintendent of the Lester strip mine where the massacre occurred.

The indictment of Clark, it was learned, resulted from alleged boasts attributed to him shortly after the massacre when some believed there would be no investigation, that he participated in the killing of McDowell.

The indictment had been hurried through, it was learned, because of reports that he was disposing of his possessions in Johnson county, near here, where he has been farming, and officials feared he contemplated fleeing.

Clark surrendered after a conference with officials of the Illinois Mine Workers, who immediately arranged to furnish bond. Attorney General Brundage of Illinois and other officials conducting the inquiry apparently did not look with favor on this, as Clark was placed in jail.

Marion, Ill., Aug. 31.—(By the Associated Press.)—The fourth day of the grand jury investigation of the Herrin mine war was expected today to yield more evidence on which it is now certain many more indictments will be issued, in addition to the first already made known yesterday. The name of the defendant was withheld.

The unexpected issuance of the indictment charging murder in the first degree in connection with the death of C. K. McDowell, crippled superintendent of the Lester strip mine, around which the massacre took place, the presence of Frank Farrington, president of the Illinois mine workers, and other state union officials, and the efforts to ascertain whether Mexicans were among the slain employees of the Southern Illinois Coal Company, were the chief developments yesterday.

A statement by Mr. Farrington charging that "forces had combined to convict our members," and adding that no expense would be spared in defense of any union miner that might be indicted, brought from Attorney General E. J. Brundage a reply in which he insisted the investigation would not be directed against any person in particular.

Non-Residents Testify.
The reticence of some witnesses, who are said to have declined to answer questions before the grand jury apparently has thrown no obstacle in the way of progress, according to the Attorney General, who is confident that the testimony furnished by non-residents of Williamson county is more than sufficient to bring about numerous indictments.

Mr. Brundage has taken the view that fear of incriminating themselves has prompted the resident witnesses of Williamson county to withhold information or answer questions with reluctance, but at the same time he has expressed belief that some of the witnesses would readily turn state's evidence after indictments had been voted by the grand jury.

The complaint of the Mexican government that citizens of that country were victims of the massacre around the Lester strip mine, is known to have been drawn into the investigation, but it also has been revealed that the testimony of the witnesses has failed to substantiate the complaint. Four Mexicans are reported to have been in West Frankfort, a mining center in the neighboring county, on the day of the Herrin riots, and one is said to have met death in trying to escape from a mob by falling from a mine tippie where he had sought refuge.

Many more witnesses are still to be heard and none of the officials connected with the investigation would finish its work.

Railroads of West
Exercise Priority

By Associated Press Leased Wire
Washington, Aug. 31.—Railroads west of the Mississippi river were authorized today by the Interstate Commerce Commission to give preference and priority to the movement of foodstuffs, livestock, perishable products and fuel whenever their operating conditions become such as to cause freight congestion or blockade. The order declared an emergency and laid down rules for the conduct of the western lines identical with those which have been in effect on railroads east of the Mississippi for several weeks.

FURTHER PLOTS OF TRAIN WRECKERS ARE BEING INVESTIGATED

Search is Being Made for Big Cache of Explosives.

By Associated Press Leased Wire

Chicago, Aug. 31.—Aroused by the disclosure of charges of plots to wreck trains and the arrest of three men in connection with an alleged plan to dynamite the Western Express on the New York Central lines, the police today declared they would attempt to round up numbers of radicals.

Reports that raids on radical centers throughout the country were planned, was denied at the bureau of investigation of the department of justice here.

Detectives today were attempting to learn whether or not there was any connection between the plot attributed to the trio held in connection with the reports that the Western Express was marked for wrecking and that of four men held at Gary, Indiana, charged with murder as a result of the killing of engineer and firemen on the Michigan Central express train which was wrecked near Gary on August 20. The men held at Gary were alleged by the police to have admitted membership in railway shopmen's unions, whose members now are on strike.

Search for Dynamite.

The police suspect that a quantity of dynamite has been obtained by plotters for the purpose of wrecking trains and damaging railroad tracks and buildings, and a thorough search is now being made in an effort to find the explosives.

Railroad detectives who representing themselves as strikers were said by the police to have obtained the first information concerning the alleged dynamite plots. They took their information to George Collins, chief special agent of the railroad, who called in the local police.

The men now held here in connection with the plot alleged to have been hatched against the Western Express are C. A. Lagham, J. J. Boyle and Frank R. Hartman. All live in Chicago and are declared by the police not only to be striking shopmen but communists as well.

The plan to dynamite the express train was declared by investigators to have been set for today, although an earlier plan, the detectives say, was to have executed the plan last Tuesday. The arrests in connection with the Gary wreck, according to the police, are believed to have delayed the plans alleged to have been plotted against the Western Express train.

Attempt on Bridge.

Attempts to blow up the tracks of the Chicago & Alton and a bridge on the same road near Alton, Illinois, were discovered when two cans of dynamite were found by a section crew.

Although preparations were made to re-open the shops of the Missouri Pacific and the Missouri, Kansas & Texas Railroads at Sedalia, Missouri, the Missouri Pacific roundhouse and shops at Desoto, Missouri, remained closed, the management announcing that operations had been discontinued indefinitely.

After preparing a report of their proceedings the chiefs of the transportation brotherhoods who met in Cleveland on Tuesday and Wednesday, ended their conferences.

Total indebtedness of the Chicago & Alton Railroad was estimated at \$14,000,000. William G. Reed, for many years president of the road, and W. W. Wheelock, a Chicago attorney, were named receivers by Federal Judge Carpenter. The coal and rail strikes were said by Chicago & Alton officials to have been contributing causes for the road's financial condition.

Ashton Farmer Hit By Dixon Autoist

While Evan Drummond was bringing a wagon load of oats to town last Friday he was run into with an automobile which threw him from the wagon and he was badly bruised when the wagon spring seat hit him in the back in the fall. The auto was driven by a man named Jones from Dixon who claimed he did not see the wagon until he struck it, and must have been asleep at the wheel. The wagon was badly wrecked and the load of oats scattered over the pavement.

Jones assumed full responsibility for the accident and remained in town and arranged for the repairs which cost \$21. The accident happened near the Clarence Drummond home north of town.—Ashton Gazette.

Mrs. Cline's Brother Charged with Murder

By Associated Press Leased Wire

Edgewater, N. J., Aug. 31.—Charles Scullion, brother of Mrs. George Cline, whose husband is held for the murder of John Hergen, motion picture daredevil, was arrested by Bergen county authorities today on a charge of murder.

Witnesses of the slaying asserted Scullion was present at the home at the time Hergen was shot, and that he procured for Cline the pistol with which the shooting was done.

Scullion, who was arrested at his home next door to that of the Clines, pleaded not guilty and was held without bail. Following the arraignment the prisoner was questioned at length.

Cline, who admits the slaying of Hergen, claims he shot when Hergen suddenly attacked him as they were on their way up stairs in the Cline home to fight a pistol duel, to which Hergen had agreed after admitting an assault on Mrs. Cline.

Prosecutor Hart maintains that he will prove the slaying was a case of "cold blooded murder."

Accept Compromise in Moratorium Crisis

By Associated Press Leased Wire

Paris, Aug. 31.—(By the Associated Press.) The allied reparations commission has decided to accept the Belgian compromise on the German moratorium proposition as a solution of the present crisis. It was learned this afternoon. Formal vote will be taken before the day is over, it was stated.

The British, Italian and Belgian members are declared unequivocally to favor this settlement. The attitude of M. DuBois, the French member was not definitely known when the early afternoon session of the commission adjourned.

VIOLENCE INCREASED IN RAILROAD STRIKE; MANY BRIDGES BURNED

(Continued from Page 1.)

Illinois, near Bloomington. Investigators said the switch showed evidence of tampering.

Police precautions at Algiers, a suburb of New Orleans, in effect amounted to martial law in efforts to check disorders which authorities characterized as virtual anarchy. Automobile loads of police patrolled districts where fires have occurred in the homes of railroad workers, following announcement by the fire marshal's office that incendiaryism was responsible for the burning of several homes. Police reported almost constant firing in railroad districts and between thirty-five and forty assaults since the shopmen's strike began. One man was killed by a negro cook, who was being beaten.

Reedy Booth, a guard on the Southern Railway, died in a hospital at Augusta, Georgia, from wounds received when he and another guard were attacked. His companion, E. M. Foster, was killed. The men were shot and cut with knives.

Walter Adams, a striking car man, was arrested at Memphis, Tenn., on a charge of highway robbery and attempt to commit murder, the charges growing out of an attack on July 5th on a special agent of the Union Belt Line Railway.

Striker Is Freed.

A jury at Shreveport, La., returned a verdict of not guilty in the case of Richard Koenig, a car man, charged with participation in the abduction and flogging of a car checker and a guard for the V. S. & P. Railroad on the night of August 16.

The homes of two railroad workers at Council Bluffs, Iowa, were stormed with bricks and at Clinton, Iowa, a non-union worker was beaten and United States Marshal J. A. Pickett was slugged.

State troops on strike duty at Salisbury and Spencer, N. C., were ordered back to their home stations today, authorities feeling assured that danger of further disorders in the shops of the Southern Railway had passed.

Four men, two of whom were said to be deputy U. S. marshals, were attacked by a crowd and severely beaten at Sedalia, Missouri.

Guards on the Northern Pacific at Missoula, Montana, were reinforced by a squad of deputy U. S. marshals following an attack on a bunk house where twenty-five workmen were asleep. Although a volley of shots were fired into the bunk house none of the sleeping men were injured.

DIXON LADY GOLFERS DEFEATED STERLING IN TUESDAY'S GAME

Closely Contested Battle to Players of This City.

Sterling, Aug. 30.—Rock River Country club ladies were hostesses Tuesday, entertaining a delegation of about two dozen members of the Dixon club for a golf and bridge tournament. The first ten players of the two clubs met for a golf contest and several tables of bridge were enjoyed by those who did not play golf.

The tables for the luncheon served at about two dozen members of the Dixon club for a golf and bridge tournament. The first ten players of the two clubs met for a golf contest and several tables of bridge were enjoyed by those who did not play golf.

The Dixon team proved too much for the local players and defeated them by a score of 13 to 12. It was a very closely contested game throughout and after the first round in the morning the sides were about even. In the afternoon, however, the Dixon ladies succeeded in gaining one point and won the tournament.

The individual low score of the day was made by Mrs. S. Gossard of Dixon with an even hundred for the two rounds. Mrs. Gossard also played low score on nine holes with a 46. Miss Roe held low score for Sterling with 102 points for eighteen holes and a 48 for nine holes. The day was ideal for golf being cool and pleasant and a good many players enjoyed the game beside those in the tournament.

Following is the score:

ALEXANDER GRAHAM BELL—

During the burial service of Alexander Graham Bell, inventor of the telephone, telephone wires throughout the United States and Canada were still. Sarah Elizabeth Howard, of Greeley, Colo., has written the following lines based upon this incident which are sent to the National Republican by H. O. Luther, of Denver:

Be silent for one moment, vibrant wires,
That stretch from shore to shore the land across—
Be silent and declare a world's great loss.

The brain, the hand, that gave to iron, speech—
The tireless worker has been called away.
Be silent. Earth receives his lifeless clay.

Twice his desire to help his fellow men,
How he fulfilled it words can never tell—
The old, the young, the gay, the sad, know well.

Thought developed to a mighty power—
Leaving toil, annihilating space—
I gave his name in grateful hearts, high place.

Honor him, that men may know his gift
Said them to reach their fond desires,
Be silent for one moment, vibrant wires.

BE GUESTS AT THE FRANK FISHER HOME—

Mr. and Mrs. Henry Westerman and Mr. and Mrs. August Petermeier and daughter, Caroline, of Melbourne, Ia., arrived here Tuesday and are visiting at the Frank Fisher home. While motoring here they met with an accident. A farming vehicle ran into the side of the car and Mrs. Petermeier had her right hand badly bruised, and their car was slightly damaged. The accident happened three miles north of Polo. They hurried to Polo where the injured hand was dressed, requiring quite a few stitches. The hand gives Mrs. Petermeier much pain.

MRS. J. M. KNEISELEY OF SEATTLE, WASH., AT THE TAVERN—

Mrs. J. M. Kneiseley, of Seattle, Wash., arrived in Dixon yesterday and is a guest at the Nachusa Tavern. Professor and Mrs. Kneiseley formerly resided in Dixon and Professor Kneiseley during his residence in Dixon was recognized as one of the most successful and popular instructors who ever taught here. Mrs. Kneiseley's many friends in Dixon will be delighted to again greet her. The Kneiseley family resided here eighteen years ago.

Prof. Kneiseley since leaving Dixon has gained a wide reputation as an educator, and is recognized as one of the leading educators of the West. He is principal of the Broadway Night School of Seattle, a school which has

5,000 pupils, and ninety teachers; he is also principal of the Green Lake School and is vice president of the National Educational Association. He will be sent as president of the Principals Association of the Schools of Seattle to be held next February in Washington. Dixon friends will be glad to hear of his continued advancement and success, and will be pleased to know that en route to the meeting at Washington, Prof. Kneiseley will stop off in Dixon for a visit with friends.

THIRTY-FIFTH WEDDING ANNIVERSARY CELEBRATED—

(Contributed.)
Sunday was the scene of a most happy gathering at the home of Mr. and Mrs. Frank Fisher, when their children and their families and other relatives, numbering in all 45, gathered at their home and completely surprised them in remembrance of their 35th wedding anniversary. At noon a bounteous scramble dinner was served, after which the guests and guests of honor assembled on the lawn when the oldest son, Edward, presented their parents with a beautiful rocking chair with the following verse:

Thirty-five years ago on a bright August day
Frank took Mary for his bride and she
promised to obey,
To Yankton, S. D., the happy couple went.

So happy with her hubby, and he proud of his bride Cupid had sent.
There for three years, they toiled and worked.

Loving each other and they never shirked.
But alas! A prairie fire came one day
And burned their home, so they hastened away.

To dear old Dixon, they returned
Bringing their two babies, for whom they yearned.

Here a new love nest they made
Both working and trying to save
Five sons and six daughters blessed this home.

Bringing care and joy as the youngsters did roam.
Two darling children have been taken,
Leaving two vacant chairs.

So these parents realized how they enjoyed
Even what had seemed cares—
Nine grand daughters so sweet and so fair.

Ten grand sons, some without much hair.
How happy are Father and Mother Fisher now.

Forgotten are the days of sweat on their brow—
They say, "With nineteen grandchildren,
how blessed are we.

Some people do not have even three—
Now father, now mother, your children want you to know
They have not forgotten your efforts
for them, so wish to bestow.

Upon you this comfortable rocking chair,
Hoping you will enjoy it, till its worn threadbare.

(By Mrs. Prescott Wolcott.)
Those present beside the children and their families were Mr. and Mrs. William Fisher of North Dixon, and Mr. and Mrs. William Baker and family of Coleta, Ill.

MRS. ROSENTHAL ENTERTAINED AT LUNCHEON AT CLUB—
Mrs. Max Rosenthal yesterday delightfully entertained with a luncheon at the Dixon Country Club, honoring Mrs. Frank Porter Howell, of Council Bluffs, Iowa.

SCRAMBLE SUPPER AT JOHNSON HOME MONDAY EVENING—

Monday evening at the Charles W. Johnson home in North Dixon a scramble supper was enjoyed, a sort of family reunion, honoring Rev. and Mrs. Finis Idleman, of New York, who have been visiting relatives here. The evening was one of especial pleasure to all. Those participating were: Jerome Cox and family, Amos Palmer and family, F. M. Johnson, Finis Idleman and family and Miss Bess Johnson.

Rev. and Mrs. Idleman left Tuesday on their return journey to New York, after a pleasant visit with relatives and friends here. Rev. Idleman held at one time the pastorate of the Christian church and was a much beloved pastor here.

MARRIAGE A LA MODE—

Among the northern races, particularly among the Finns, long, luxurious hair is regarded as a woman's greatest beauty.

If she cuts her hair a girl signifies that she has no interest in receiving attentions from men and that she will listen to no proposals of marriage.

A frequent cause of separation or divorce is the husband's disillusionment when he finds his wife's hair is not all her own.

WERE ENTERTAINED AT FISHER HOME SUNDAY—

Mr. and Mrs. Henry Goeckle and son Wallace, of Marshalltown, Iowa, and Mrs. Gust Wehrman and daughter, Helen, of Melbourne, Iowa, motored here Sunday and were entertained at the Frank Fisher home. Monday they all motored to Coleta and visited at the William Baker home. They left for their homes Tuesday morning.

IF YOU ARE WELL BRED—

You remember that the place of a man, when talking with two women, is on the outside—not sandwiched between the women.

It is never considered correct for a man to take a woman's arm unless she is feeble and needs assistance.

For a man to grasp her firmly by the elbow when crossing the street is also a social error.

MARRIED TUESDAY EVENING, AUGUST 29TH—

Mr. and Mrs. A. E. Simonson, 314 Eighth street, announce that the marriage of their daughter, Caroline E. Simonson to Leland E. Eaton, of Chicago, took place Tuesday evening, August 29th, at the First Presbyterian church, Grand Boulevard, Chicago. Dixon friends extend best wishes.

SCRAMBLE SUPPER FOR MR. AND MRS. BRINTON—

A company of friends entertained with a scramble supper last evening at the Country Club in honor of Mr. and Mrs. Bradford Brinton, who leave soon for New York to make their home. It proved a most enjoyable evening for all.

TO BE GUESTS FOR REMAINDER OF VISIT—

Mr. and Mrs. Frank Porter Howell, of Council Bluffs, Iowa, will be guests at the home of Miss Clara Rink and Mrs. E. A. Bodwell during the remainder of their visit in Dixon.

ENJOYED TRIP THROUGH NORTHERN WISCONSIN—

Mr. and Mrs. Walter Klein, Miss Lucile Welch and Harold Rowland have returned from a pleasant ten-day trip through northern Wisconsin. They had delightful weather and good roads all through the trip.

LEAVING ON A MOTOR TRIP TO BARABOO, WIS.—

Colonel Charles H. Noble and daughter, Miss Florence Noble, are leaving soon for a motor trip to Baraboo, Wis., where they will visit the William H. Hollenbeck family. Messrs. Noble and Hollenbeck are relatives.

RETURN HOME AFTER VISIT AT RICHARDSON HOME—

Mr. and Mrs. C. A. Taggart and children, Elva and Alfred, of Chicago, and Miss Dorothy S. Stroker, of Wauconda, Ill., have returned home after a visit at the W. B. Richardson home in this city.

MOTORED TO MOOSEHEART SATURDAY—

Mr. and Mrs. John Stover and Mr. and Mrs. Emil Janssen and daughter, Evelyn, motored to Mooseheart Sat-

urned from Sublette and are at the Dr. Worsley home on Galena avenue for the present.

BRIDGE PARTY FOR MISS COPPINS—

Yesterday afternoon Miss Frances and Sue Patrick, entertained a few friends at bridge honoring Miss Coppins, bride-to-be of Saturday, at which time she will become the bride of Dwight B. Chapman. Miss Coppins has been the recipient of many pre-nuptial courtesies during the past few weeks. Miss Coppins and Miss Alice Coppins were awarded the prizes yesterday.

Miss Jeannette Rogers, of Clinton, Iowa, and Miss Elizabeth Barge, of Chicago, were out-of-town guests.

RETURN FROM TRIP TO WISCONSIN—

Mr. and Mrs. Roy Raffenberg and Miss Helen Weitzel returned last evening from an automobile trip to Wisconsin. At Lake Delavan they visited at the summer home of Mrs. Raffenberg's sister. The Dixons enjoyed some wonderful fishing, and were gone a week.

SPENT WEEK-END AT RICHARD HOME—

Rev. M. G. Crocker and family, of Platte, Kansas, who have been visiting in the east spent the week-end here, guests at the home of Mr. and Mrs. E. H. Rickard before continuing their journey to Platte, Kansas.

MISS RICE HERE FROM ROCKFORD—

Miss Thelma Rice, of Rockford, has been visiting relatives in Dixon this week, the Charles Bishop and Dr. James Rice families.

MOTORED HERE FROM COLETA SUNDAY—

Mr. and Mrs. William Baker and family, and Master Clarence Angles, motored here from Coleta, Ill., Sunday and were guests at the Frank Fisher home.

Dug Up Flowers on Dog's Grave, Pinched

Quincy, Ill., Aug. 30.—A queer case of alleged vandalism came to light here today in the arrest of William Lovelace, charged with stealing flowers from the grave of the pet dog of James Ives, keeper of the lodge gate at the Illinois Soldiers' and Sailors' Home here.

Ives had buried his dog in a ditch by the road-side near the lodge and planted some choice flowers on the canine grave. Several days later Lovelace, seeing the beautiful plants by the roadside, dug them out. He says he did not know of the dog's grave. The case has been continued for ten days.

Hornsby is Also "Some Home Body"

San Francisco, Calif., Aug. 30.—Rogers Hornsby, of the St. Louis Nationals, besides being one of the leading home run hitters in the National League, is "a wonderful home man," so his wife said today.

Mrs. Hornsby is en route to Los Angeles with Rogers second, twenty-

two months old, to visit her mother. "In fact," Mrs. Hornsby continued, "he does housework once in a while, when we're having company, but his record drying dishes isn't as good as his record for handling chances on the ball field. He drops too many at home."

ALL HUMAN

When an industrial struggle is on
an impression forms in the public
mind and in those of the conflicting
parties that each side is a sort of
solid-bodied, hydra-headed, iron-
hearted belligerent force. The longer
the struggle lasts the deeper this im-
pression grows and the harder it is to
settle the quarrel. How much better
and easier it would be if everybody
concerned could think of everybody
else as the plain human being which
he is, with ordinary ambitions, pas-
sions and likeable qualities.

Certain words of Assistant Secre-
tary of Labor Henning illustrate the
point pretty well. In speaking of the
rail and coal strike Mr. Henning
remarked: "Both sides come to us,
and I find them quick and intelligent.
Their appearance and manner is such
that we can't tell them apart until
they say who they are."

Who would believe it after a few
volleys of recrimination have been
exchanged and a bitter partisan atti-
tude has been cultivated by each
side? Just all human folks who look
so much alike and act so much alike
that you can't tell them apart until
they label themselves with their
names!

Surely a common ground exists
for the settlement of the difficulties
of those who enjoy common charac-
teristics. It could be found easily if
men would look for the humanity in
one another instead of fostering the
silly belief that it does not exist.

IMMORTAL EVIL

The settlement of the coal strike
was welcome, but it comes too late to
prevent a serious coal shortage. It
is reported that the situation is so
serious that a system of rationing
and measures to check profiteering
will be necessary under government-
al control, for some time.

Continued experience in economy
will not hurt the American people
at all, and it is right that those who
seek to exploit the national difficulty
should be restrained, but the whole
situation is one more illustration of
the fact that the evil that industrial
wars do lives after them.

The danger is that in spite of the
present discomfort and the continued
difficulties resulting from the strike,
both governmental measures and per-
sonal adjustments will be applied
solely to the settlement of the pres-
ent difficulty and little will be done
to prevent another.

SPIRITS

A "spirit picture" of Conan Doyle's
soldier-sun is printed in the Ameri-
can Magazine. Doyle is convinced
there was no trickery. He took his
own marked photographic plate to the
medium, put it in the camera.
The medium took a photo of Doyle,
who developed the plate himself. The
deceased son's likeness showed up in
the background.

Things like this make shivers run
up the spines of many. Most of us
are afraid of the departed, no matter
how much we loved them in life. If
the departed could come back, after
being gone a century, they would be
equally afraid of the scientific mar-
vels of the living.

GO-GETTER

In Sweden socialism is leveling the
wages of skilled workmen down to the
unskilled level. So claims Dr.
Hugh P. Baker, who made a trip to
study the subject for the American
Pulp and Paper Association.

It is an interesting opinion, espe-
cially to those who are convinced
that socialism would lift all to the
rich class. We can't divide any more
than is produced. After production
is nearer solution, equitable distribu-

tion will be given more attention.
The Go-Getter will succeed the Go-
Getter.

RACING

The \$100,000 stable that used to be
the home of Dan Patch burns at Sa-
ago, Minn. It will open locked doors
in many memories.

There are famous horses today.
But Dan Patch stands out clear-cut
and unique, a monument to the de-
lightful racing days before the sport
of kings went on the rocks of dis-
honesty. Horsemen are trying to
build a new ship. Have they learned
their lessons?

HOMES

Renters, ahoy! The Associated
General Contractors check up and
predict that 786,000 new dwellings
will be built in the United States this
year.

A long row to hoe yet, however.
The housing shortage at the begin-
ning of 1922 was 1,000,000 homes. Out
of the estimated 786,000 homes to be
built this year 611,000 are for normal
requirements, mostly replacing old
ones. The balance, only 155,000, ap-
plies to the shortage.

DANGER

American corporations, establish-
ing factories in Germany where they
can get cheap labor, are warned by
economists that a day of reckoning
is inevitable.

German industry is mortgaging
the future. When the German mark
is stabilized the pendulum will swing
up and a violent financial reaction
the other way is certain. The pick-
ing is easy in Germany now. But
easy picking never lasts. If build-
ing there, consider the advantages of
a portable factory.

DIFFERENT

Dr. Harvey Fletcher, summing up
experiments by telephone companies,
says that no two people hear ex-
actly alike. Each member of an au-
dience, listening to a musical concert,
hears something a trifle different
than heard by the others.

This is true of all other senses,
particularly sight. No two people
"see anything in exactly the same
light." If you doubt it, ask a group
to describe something witnessed in
common, like a fire or fight.

Difference of impressions is what
makes difference of opinions, the
cause of present turmoil.

CHEAP

If you were in Berlin now, you
could get the best accommodations at
the Adlon, excellent hotel, for \$1 a
day. That includes a room and
three meals of the sort that make
gluttons smack their lips.

You have lived to see many won-
ders. If you live a couple more
years, you may see the wonder of
living cheaper in Germany than in
China.

PERSONALITY

An able scientist describes elec-
tricity as the most mysterious force.
He is wrong. Personality is the most
mysterious force.

No one can accurately define per-
sonality, for it varies. Man, woman
or child—each has a different per-
sonality for each person met. Watch
yourself and observe the change in
your attitude or personality, in talk-
ing to various people.

FORD

Henry Ford at his Highland Park
plant in Detroit, quits using coal un-
der most of his boilers and installs oil
burners. It is part of a big move-
ment. In New York, some of the
largest buildings this winter will be
heated by fuel oil.

Many users say fuel oil is cheaper
than coal. No dirty shoveling. No
ashes. And strikes never tie up the
pipe lines. Fuel oil may knock a
big hole in the coal business in the
coming decade. Gasoline consump-
tion is increasing steadily and a
market will have to be found for its
by-product, fuel oil. Gasoline is the
tenderloin, fuel oil the round steak.

SPENDING

Lloyd George tells of a friend of
his, traveling in Russia, sassed by a
porter because the tip for moving a
trunk was only 3,000,000 rubles.

Inflation of currency may be both
foolish and dangerous. But the Rus-
sians must be having great thrills
tossing away millions and billions
like so many nickels.

SAFER

Aviator Sperry stops his airplane
within 50 feet of where it first touch-
ed the ground in landing. This hap-
pens at Farmingdale, L. I.

It is a stunt. But it is nationally
important, for it demonstrates that
the day is not far off when an air-

(No. 40)

BY ELTON

SHORTLY AFTER ONE OF THE HORSEMEN APPROACHED JACK AND QUESTIONED HIM ABOUT FLIP JACK TRIED TO EXPLAIN THAT WHERE HE WENT FLIP ALWAYS TRAILED ALONG. HE WAS JACK'S BEST FRIEND.

THEN THE MAN LEFT AND SHORTLY RETURNED WITH MORE OF THE HORSEMEN. THEY ALL HELD A DISCUSSION OVER THE DOG WHAT SHOULD THEY DO WITH HIM? "BETTER TAKE HIM TO THE CHIEF," SAID ONE.

WHEN THE REST ALL AGREED THAT THIS WAS A GOOD IDEA, JACK AND FLIP WERE MARCHED DOWN THE HILLSIDE. ONE OF THE HORSEMEN STAYED BEHIND TO KEEP WATCH IN JACK'S PLACE.

WHEN FLIP SAW THE CHIEF HE REMEMBERED HIM AND RAN UP AND LICKED HIS HAND. THIS PLEASSED THE CHIEF, AND THERE-

MONEY

A gentleman who is a glutton for
punishment figures out that the al-
lied debt to Uncle Sam is more dol-
lars than there are letters in 4000 Bi-
bles. Shipped to us in silver dollars,
it would fill 10,000 freight cars.

People who discuss the debt glibly,
and talk as if canceling it were a
routine matter such as yawning, are
like a man trying to pick up a rail-
road locomotive with a pair of bon-
bon tongs.

Now they have Charles Gregory,
state prohibition director, resigning
again shortly, with A. M. Smith, of
Stockton, as his possible successor.
Judging by the experience of those
who have filled the position since it
was created, among undesirable jobs,
this one apparently heads the list.

Down in southern Illinois its eth-
er a feast or famine in the matter of
water. Last spring everything was
flooded out and now some villages
are so short of aqua for domestic
purposes that they have been obliged
to go on short water rations for the
past ten days.

the two fairy gentlemen had jumped

WITH PLEASURE

By Berton Braley

(Mr. Poet, Dear Sir: Won't you write a poem about my sweetheart and me—Frances and Charlie.—From a letter.)

FRANCES and Charlie, I'm flattered to hear from you.
Ticked to get such a missive of cheer from you.
Truly I take it a compliment clear from you,
So I comply without waiting or parley;
Here with I sing of the lovely air of you,
Warble the faith and the hope of the pair of you.
Fortune be generous, Cupid take care of you,
Here's to the two of you, Frances and Charlie!

MAY you be calm in a world that is clamorous.
May you be firm mid the worries that hammer us.
May you continue delightfully amorous.
Never grow crabbed and acrid and gnarly;
Love hold you fast in the mightiest clutch of it.
May you know sorrow—the least tiny touch of it.
May you have money, but never too much of it.
Here's to the luck of you, Frances and Charlie!

YOURS be a domicile full of felicity,
Cosy and snug in its quiet simplicity.
May you be spared most of Fate's eccentricity—
Problems and puzzles all tangled and snarly—
Here's to your joys, may they never come scraggly.
Here's to success—may you conquer it snappily.
May all your troubles be Little Ones. Happily
All this shall come to you, Frances and Charlie!

Common Sense Ways to Keep Well.

YOUR COMPLEXION

BY DR. R. H. BISHOP

Girls, do you buy your complexion,
at the drug store or the grocery store?

Let me tell you a little beauty se-
cret—the best and most lasting com-
plexions are bought from grocery
stores.

Despite the oft-repeated axiom that
beauty is only skin deep, you always
find the most beautiful complexions
walking hand in hand with good
health and unless you eat right, you
can't be healthy.

To maintain a clear, healthy com-
plexion it is necessary to eliminate all
body wastes promptly.

Wastes are not eliminated promptly
because the right food is not eaten.
Elimination cannot go on thoroughly
unless the intestines are kept filled up
by eating the food that leaves a residue
in the intestinal tube after digestion
has done its part.

Concentrated food leaves little or no
residue.

Every farmer knows that his live
stock, in winter, needs to be fed what
he calls roughage, that is, straw. It
fills up the stomach and the intestinal

BASE HITS

CHICAGO, Aug. 31.—(By the Associated Press)—Battling to hold their slim advantage over St. Louis in the American League, the New York Yankees outfit, by Washington, pulled out a 5-4 victory with the aid of some brilliant fielding, especially by Everett Scott, who handled eight chances perfectly.

Babe Ruth poled out his twenty-eighth homer and now is only four behind the three leaders, Walker, Ken Williams and Horsey. Later in the game, however, the home run slugger ended his streak of mild behavior and was banished for disputing a called third strike. Brower of the Senators rapped out two homers.

The Giants, despite a 10-3 trouncing at the hands of Brooklyn in the first game of a series at Ebb's field, retained their six and a half game lead over the second place Chicago Cubs, who dropped a ten inning battle to St. Louis, 5-4.

Nehf, McGraw's south paw crack pitcher, was batted off the mound before a man was retired in the first inning, the Robins clinching the game with six runs. Bursleigh Grimes always had the Giant attack checked.

The St. Louis Browns kept pace with the Yanks by walloping Boone and Malls of Cleveland for 18 hits and an 11-3 victory. Speaker's pitching staff was further depleted when Coveleskie and Morton joined Bagby on the sick list.

Close decisions marked the other major league encounters. Glazner banked Cincinnati, 2-0, and put the Braves back in the first division. Philadelphia and Boston split a double header, the Braves taking the first, 2-1, and the Phillies the second, with Pitcher Lefty Wehner scoring four of his team's tallies.

Rigney's error paved the way for Chicago's 2-1 victory over Detroit in the eleventh inning, while Pratt's error gave the Red Sox a 6-5 decision in 10 innings over the Athletics.

Bursleigh Grimes evened up with "fish" Meusel after the Giants slugger poled a homer. The Dodger pitcher tightened and fanned "Irish" in his next three times up when the Giants had men on bases.

Otto Pahlman of the Danville club of the Three Eye League tied the American League record of Ty Cobb of the Tigers for hitting safely in consecutive games when he cracked out a single in the game against Terre Haute. His record now is forty-two consecutive games when he cracked out a single in the game against Terre Haute. His record now is forty-two consecutive games when he cracked out a single in the game against Terre Haute.

George Sisler widened the gap between himself and Ty Cobb for the batting leadership of the American League by piling three hits in four times at bat, while Cobb made two in five times at bat. Sisler's mark is 412 and Cobb's 400.

The St. Louis Cardinals in defeating the Cubs in ten innings used only one pitcher. This was the first time in fifteen games played by the Cards since their return home that one twirler has been able to go the route.

Babe Ruth objected to being called out on strikes and as a result he was banished, the third time this season that the Bambino has been chased.

Pistol Shot First Time in 55 Years

Morton, Ill. News: If the people on North Tremont street were alarmed by the succession of revolver shots on Sunday morning the cause of the fear can be laid at the door of C. H. Gray, O. A. Webb, father of Mrs. Gray, purchased a revolver when he came out of the army after the Civil War. The gun was loaded with six shells, but occasion failed to demand firing. The gun had been in his home in Alabama all the years, and when Mr. Webb came north to live he endeavored to unload it, but due to rust was unable so brought the gun north with him.

After some time spent in endeavoring to loosen the shells without avail, Mr. Gray fired them and found that the gun shot as well as if it had seen service during the many years. It was remarkable, the manner in which the revolver discharged the shells which had not been dislodged for 55 years. As yet the empty shells have not been removed and it will take a great deal of effort to remove them.

SCENE FROM "MY WILD IRISH ROSE"
Here are three of the many reasons why "My Wild Irish Rose" is one of the great pictures of the current year. They are Pauline Starke, little Richard Daniels and Pat O'Malley. Another reason is David Smith, of "Black Beauty" fame, who had charge of the production. And still another reason is that the story was adapted from the famous Drury Lane melodrama by Dion Boucicault, "The Shaughraun," a story of Irish country life in the early days of the nineteenth century.

RESURRECTION ROCK

by Edwin Palmer
Little, Brown and Company

BEGIN HERE TODAY

A mile from the shore of Lake Huron was the mysterious and ghostly Resurrection Rock, symbol of some great wrong done in the past, which now became connected with a supernatural force in the mind of

ETHEL CAREW. That morning she came to the home of her grandfather, old

Lucas Cullen, a senior, who had won millions in endless struggles for timber lands in northern Michigan. She asked for money to carry on the engineering projects undertaken by her father before he had been killed in France.

BARNEY LOUETRELL then entered her life. The young army officer had received messages from her father during a romance. He must go to the Resurrection Rock. He felt that the trip would solve the mystery of his strange parentage and of his reaction by Indians. The news of his presence throws Lucas Cullen into a fit of rage and he tries to bribe Ethel to tell what she knows of Louetrell.

GO ON WITH THE STORY

CHAPTER V

It was fast becoming dark, as the swift, midwinter evening closed down. With the night came wind; and upon the wind returned the cold. The gaunt outline of the Rock withdrew to dinner and dinner distances until Ethel at her window could see it dimly. Suddenly a bright dot glowed through the darkness—a light upon Resurrection Rock, a light yellow with distance illumining a window, Ethel thought. It went out as suddenly as it appeared; then it glowed again and once more went dark. She watched steadily for some time longer, but no light appeared again. She heard a soft tap, tap, tap at her door; and she went over and opened it to find the collier, Lad and Lass, who had been out with Kinchloe when she arrived. The dogs, wet from the snow melting in their long hair, turned Ethel's thought to Miss Platt's husband.

He had always affected the manners of a gallant and always before had made it a particular point to be on hand to greet Ethel when she arrived at St. Florentin. She had been too excited to attribute any significance to his absence this time; but now the fact stirred disquiet.

As he had taken the dogs with him, he probably had been on the lake, for the dogs would not have been able to run except on the ice where the wind had cleared the snow. Now what had kept Miss Platt's lazy, comfort-loving husband out so late this evening in the dark and cold?

Every one was at supper when Asa Redbird returned with a telegram which—like all Cullen business telegrams—was in code.

Lucas at once left the table and, with Miss Platt, went into his office to decipher the brief communication from his son. When he returned to the table, it was so plain that he had exciting news that his wife could not repress her question: "Something has happened in Chicago, Lucas?"

"Nothing," he denied, and he gulped half a cup of tea, hot. Ethel watched Kinchloe as Miss Platt returned to her seat.

He was trying to catch his wife's glance; but Miss Platt avoided looking at him.

"Asa saw several foxes about," she said casually to Ethel; "I suppose they're after our chickens."

Lucas was taking another cup of tea, and Ethel was watching his hand reach for the sugar bowl, miss it and reach again. He was drinking when suddenly he dropped his cup and jerked up and away from the table; Kinchloe and Ethel herself started also as the report of a rifle rang, sharp and clear, outside the house. The gun fired again.

Miss Platt and Ethel's grandmother alike had revealed no alarm. "Asa said he would get his gun," Miss Platt volunteered quietly, "and come back for the foxes."

"Of course," her husband said,

dropping back into his seat.

Lucas remained at the table only a moment before he proceeded to the front room where, in recent years, family prayer was said each evening after supper.

While Ethel knelt, listening to her grandfather's voice go on and on, an amazing panic possessed her. She was feeling that the long, deliberate reading and now the endless supplication was for a purpose other than devotion, and that purpose was to keep her kneeling in that stuffy room with her face to the back of a chair. Suddenly she arose and slipped into the hall where she found her coat and cap and skis. She drew breath, when she opened the door, as though she had been stifling; and she went out upon the snow in the direction of the lake.

She heard her grandfather's voice shouting at her; but she did not heed it, and he did not pursue her. It was after eight o'clock and very cold, with a constant wind blowing off the ice. The Rock lay lost in

obscurity. She gazed frequently for the reappearance of the light which she had seen the hour earlier. Its absence filled her with dread.

She turned back to St. Florentin and soon heard a shout which she recognized to be Sam Green Sky's voice. When she replied, Sam hastened up, reporting friendly:

"Old man send me after you, awful mad; old man tell you to come right home and stay there."

Ethel found her grandfather to be "awful mad"; indeed, he met her at the door and ordered her to go to her room and to bed and stay there. What did she mean by going out in the dark to see a stranger whom she had met on the train? She was his granddaughter and at his own house, and he would be obeyed.

At eleven o'clock when the household, except Kinchloe, had gone to bed, Ethel rebuilt the fire in her stove and sat in a chair by her window. From the room on the other side of the wall at her left she could hear sounds which told her that her grandfather was still restless; she heard him open his door and go out into the hall and come to her door and stand there. He was listening, she knew; but he probably supposed her to be in bed and asleep. At any rate, he moved away and went downstairs.

In her stocking feet, she moved noiselessly across to her door which she opened carefully. She crept halfway down the stairs. Something clicked; she recognized that her grandfather was loading a repeating rifle; and a few moments later his great figure came dimly into view when he halted before a window.

She could see that he was holding his rifle ready but lowered; and her heart beat just all through her. If he raised his rifle to fire, she would rush down upon him. But he did not; he only moved from one window to another, looking out; and

those punches came thick and fast.

This was in a tract of territory in northern Ohio called the western reserve and known from far and near as the hot bed of abolitionism. A branch of the underground railroad ran through this tract with a station about a mile from where I lived, the passenger waiting room of which was the attic of a one and a half story farm house. When a runaway slave

got a berth on that road, he had a through ticket to Canada and usually disappeared except to the train people until he showed up across the Canadian line.

Academy at Sterling

Opens Friday Night

"With petting parties, baby vamps, jazz music and flappers, I imagine that old fashioned marriage will be extinct in ten years," said a young lady of the modern school to C. S. Primrose, the rather famous theatrical producer. Being somewhat of a psychologist and fatalist, Mr. Primrose absorbed the suggestion. The result was logical and within six months he had persuaded Arthur Teenon Kayser to write a play around the idea. "Why Wives Go Wrong" is the title and the country has gone wild about it. That is why Manager Olmsted started on a still hunt to corral this attraction for Sterling. He was successful and therefore we will see this rather startling sage play at the Academy Friday, Sept. 1, presented by the same original cast that plays New York Chicago and all the big cities.

Take your future seriously. Plan ahead!"

DRESS SALE

LAST PRICE CONCESSIONS ON WOMEN'S SMART SUMMER FROCKS

There are many remaining summer days when a cool, winsome frock like one of these will more than repay you in comfort and pleasure the little price asked for it. These very same frocks sold for much more only a week ago, but the time has come to make room for the new Fall wear. The many prevailing dress sales cannot dim the brilliant features of this one, in fact, they don't begin to come anywhere near it. We've made comparisons. We know whereof we speak.

Publicity Manager for New Basic Law

Springfield, Ill., Aug. 30.—President Charles E. Woodward of the constitutional convention this morning announced the appointment of S. P. Preston, editor of the Gillespie News, as publicity manager of the campaign for the adoption of the proposed new state constitution.

Mr. Preston was formerly president of the Illinois Press Association and is now chairman of its executive committee, and also of the executive committee of the Southern Illinois Editorial Association. He has been a strong advocate of the proposed constitution.

President Woodward in announcing his appointment, said Mr. Preston would have general supervision of the distribution of information of an educational nature, explaining the changes from the existing constitution which appear in the new draft. Inquiries and requests for information addressed to Mr. Preston, it was announced, would receive prompt reply.

RAIL STRIKERS
BROAD INJUNCTION ISSUED TO
ATTORNEY GENERAL DAUGHERTY
IN CHICAGO COURT THIS MORN

Would Estop Any Interference with Roads or Employees.

RAILROADS REPLY TO
SECTION MEN'S PLEA
FOR WAGE INCREASES

Labor Board Expected to Give Decision in Two Weeks.

BULLETIN.
Chicago, Sept. 1.—(By the Associated Press.)—The United States government today was granted a temporary restraining order against the six striking railroad shop crafts unions, their officials and members from interfering in any way with the operation of the railroads and their properties.

The order was granted by Federal District Judge James H. Wilkerson on application of United States Attorney General Harry M. Daugherty and District Attorney Charles F. Clyne. The order will remain in force until Sept. 11, pending hearing on the government's application for a permanent writ of injunction.

GOVT. IS SUPREME.
The Attorney General addressed the court immediately following the reading of the formal complaint, read by Assistant Solicitor General Esterline. His plea for the injunction, Mr. Daugherty said was made necessary by the fact "that there comes a time in the history of all nations when the people must be advised whether they have a government or not."

"No union nor combination of unions can, under our law, dictate to the American union," the statement continued. "When the unions claim the right to dictate to government and to dominate the American people and deprive the people of the necessities of life, then the government will destroy the unions, for the government of the United States is supreme and must endure."

"Tomorrow it will be said by some more malicious than truth that this proceeding is intended as a death blow to the unions. . . . In my judgment, this movement (the injunction) is necessary for the protection and preservation of the unions themselves."

"So long and to the extent that I can speak for the government of the United States, I will use the power of the government within my control to prevent the labor unions of the country from destroying the open shop."

Chicago, Sept. 1.—Suits for an injunction against all striking employees of the railroads of the United States and their union officials, was filed in U. S. District Court by Attorney General Harry M. Daugherty here today.

The suit was filed shortly after the arrival of Attorney General Daugherty in Chicago. The plea for injunction named the Railway Employees Department of the American Federation of Labor, the six striking shop crafts and 120 system federations.

Beside the railway employees department, the six international unions, International Brotherhood of Blacksmiths, International Association of Amalgamated Sheet Metal Workers, Brotherhood of Railway Carmen, International Brotherhood of Boilermakers and Iron Ship Builders, International Association of Machinists, International Brotherhood of Electrical Workers as well as 120 system federations were named as the objects of the injunction.

To Restrain All Strikers.
The suit seeks to restrain all strikers from interfering in any way with the operation of the railroads. It was filed before United States District Judge Wilkerson almost immediately after the Attorney General arrived.

Soon after the arrival of the Attorney General, Blackburn Easterline, Assistant Attorney General appeared before District Judge Wilkerson and began a copy of the petition for a restraining order. The application was sweeping in character and sought to prevent all interference with operations of trains or with railroad property in any way.

The application for injunction specifically named the presidents of the various union organizations involved in the present strike which started July 1 last, following a wage decision of the railroad labor board reducing wages of railway employees throughout the country.

Seeks Broad Order.
The suit sought to enjoin all railway employees, attorneys, servants, agencies, associates and members and all persons acting in aid or in conjunction with them, primarily, until final hearing and permanently thereafter, from in any manner, interfering with, hindering or obstructing railway companies, their agents, servants or employees in the operation of their respective railroads and systems of transportation of passengers and property in interstate commerce and the carriage of the mails and from in any manner, interfering with, hindering or obstructing the same.

Chicago, Sept. 1.—Spokesmen for the 105 railroads involved in the hearing on the petition of 400,000 maintenance of way men for a minimum wage of 48 cents an hour submitted their testimony to the United States Railroad Labor Board today.

The board is expected to hand down its decision in the case within the next two weeks.

The trackmen had finished their presentations when life carriers offered their testimony expecting to complete their side of the case during the day.

Chicago, Sept. 1.—(By the Associated Press.)—Police and federal operatives launched a vigorous drive here today against radicals and terrorists believed to be behind railroad wreck and bomb plots.

The roundup began with the arrest of a man charged with bombing the homes of two workers in the Illinois Central shops at Burnside.

Frank R. Hartman, one of a trio arrested yesterday in connection with an alleged plot to blow up the "Western Express" on the New York Central, was still in custody, although the other two were released. Police said there was not sufficient evidence to hold them.

Activities here followed 24 hours of increasing disorders, bridge burning and dynamiting of railroad property throughout the country.

Repudiate Confession
With a defense fund being raised by labor organizations, attorneys for the four men held at Gary, Ind., on charges of wrecking the Michigan Central's "Million Dollar Express" on August 20, began a legal battle for the release of the prisoners. Three of the men who signed alleged confessions, repudiated them, declaring the confessions were made to save them from further abuse by the police. One of the men bared his body to the waist in the Gary court and exhibited welts and bruises which he declared were inflicted by black jacks and pieces of rubber hose in the hands of policemen.

Breaking into the house of Michael Kruschum, early today police found him hiding in a corner and as they started away to lock him up pending questioning in connection with the bombings at Burnside, the house was rocked by an explosion six doors away. Hurrying to the scene they found the front of a house occupied by D. Merriek, an Illinois Central employee demolished by a bomb.

Plot Executives' Death
Disclosures of an alleged plot to kill three railroad presidents or kidnap members of their families were made during the investigation of radical activities, according to the Herald and Examiner today. The three rail heads against whom the alleged plot was made were said to be the presidents of the New York Central lines, the Pennsylvania system and the Chicago, Rock Island & Pacific.

Deportation proceedings against aliens arrested in connection with plots against the railroads are probable, authorities said.

Stewart Wilkinson, 38, an employee of the Chicago, Rock Island & Pacific Railway, was kidnapper by four men, beaten badly and left lying in the street. He was found by pedestrians and sent to a hospital, where his condition was said to be critical.

Foster Must Stand Trial
Governor Small of Illinois aided the progress of investigation into radical activities when he granted a requisition to extradite William Z. Foster, notorious radical leader and head of the trades union educational league, to Michigan, where he is wanted on charges of communistical syndicalism growing out of the alleged communist meeting in the Berrien county woods.

W. P. Zeyford, president of the New Mexico State Federation of Labor, and Andrew Bruno, a plumber were held at Albuquerque following their arrest on a Santa Fe train and the discovery of bombs, fuses and caps in their grips. Searching Zeyford's room police said they found more bombs.

The arrests were made by Sheriff Tony Ortiz of Albuquerque, operatives for the Department of Justice and special agents for the Santa Fe. Federal officials said they believed Zeyford was a communist.
